

# Data Strategy and Governance Assessment

## About Data Assessment

Data-Driven will deliver an Azure data and analytics assessment, along with a future data state roadmap to modernize your digital processes. This will help you leverage your data assets to improve business value and performance.

### See what customers are saying:

*"TfNSW needed a solution to capture real-time data for every vehicle in motion across the state. This solution just gives us that so that we mine nuggets from this data."*

*Sandeep Mathur, TfNSW Program Manager*

## Our Offer?

### Current State Analysis Assessment

- ✓ Consider all data used (ingested, transformed and reported)
- ✓ Current data architecture and data flows

### Data Strategy and Governance Roadmap

- ✓ Identification of any gaps in the data available for current and near-future analysis requirements.
- ✓ Consideration of data management and analysis processes required reporting and analytics.
- ✓ Consideration of the business direction and priorities.

# Why our Data Strategy and Governance Assessment?

## Data-Driven Culture

Encourage a data-driven culture aligned with business goals and priorities

## Internal Business Case

Build a compelling business case to justify further investment on your cloud adoption

## Accelerate your Digital Journey

Accelerate your digital transformation journey, reduce time to market and minimize risk

## How does it work?

### 1. Build Business and User Context

### 2. Understand your Current Data Landscape

### 3. Build a Target State Roadmap and Plan

#### Strategy

- ✓ Substantiate business drivers
- ✓ Build high-value use cases for data governance
